

Prelude- My intent of this communication is for you to come away from reading this to say out loud. "Not on my watch! This cannot go one more day!" This is happening in your community, your state, your nation, and our world. I listen to grown children from these abuses and hear their cries of pain. These abhorrent aggregated crimes against our fellow human beings are beyond the likes of Epstein or Nassar. The grown children of these crimes are standing together and saying not one more generation! The crimes are so horrendous that at times it can be unbelievable and not easy to talk about but needs to come into the light. There has to be a point that we as a society open our eyes to save our precious children.

This is long but needed. Below you will find History, problem, samples of auditing, ethics handling, course description, security checks, laws being violated, related court cases and video documentation.

History (brief)

The Church of Scientology- founded by L. Ron Hubbard, he was the leader until his death in 1986. Then David Miscavige took over as Chairman of the Board, COB. The "church" is comprised as religious entity and its makeup is over 50 501c3 organizations that are webbed into the "church." The myriad of corporations makes it confusing on purpose. The "church" lost its tax-exempt status for 23 years and was only given it back after suing, harassing, and threatening members of the IRS. Truly the makeup and management of the church is more aligned with an MLM. There are several documentaries Going Clear or Leah Remini's AfterMath.

The church of Scientology has a main goal and a sub- goal. The first and foremost goal is to "clear the Planet" Clearing the planet means that Scientologists want to rid the planet of insanity, war and crime, and in its place create a civilization in which sanity and peace exist. In order to do this, they must help individuals become free of their own individual aberrations and insanities and, hence, regain their inherent goodness. That is what is meant by "clearing the planet." Their doctrine, policies and practices support the belief of clearing the planet. The doctrine, policies and practices are abusive.

The sub goal is to extinguish psychiatry from the planet. Psychiatry to a Scientologist is abusive. The COS relies on their doctrine, policy and practices to include the dianetics courses. All forms of mental health diagnosis and treatments are shunned. All psychiatric medications are forbidden. There have been many deaths due to this Lisa McPherson, Whitney Mills, Philip Gale. The First cause of death in Scientologists and ex-scientologists is cancer the second is suicide. Suicide is prevalent in the church.

The ability to have individuals attest to the state of clear is through auditing, ethics handling and courses. The three processes are described as beneficial and essential however the abuses stemming from these processes far outweigh the benefits. The abuses result in disabilities; physical, mental, cognitive, both aggregate/chronic and acute. We are finding some bodily injury claims with scars to validate the claims stemming from physical abuse and neglect as children. The emotional, cognitive, and mental abuse suffered by children growing up in this culture is alarming. Ex-scientologists are at almost a 100% rate of having mental and cognitive impairment to include PTSD, Severe Anxiety, depression, suicidal tendencies, developmental and emotional delay, and stunted educational capacity.

The services are provided at all "churches" some OT Levels are only provided at Class 5 Organizations. Los Angeles is home to a Class 5 organization and California houses the International Base among other orgs. The services of Auditing, ethics handling and courses are provided to ALL people in Scientology.

Auditing is advertised to be used on babies 1 day and older. Age is not a limit to auditing, ethics handling or courses. Age is also not a limit in recruiting for the staff positions or SeaOrg. The executives have been reported as saying there are no more children in the SeaOrg however it is semantics. Scientologists do not believe children are children. They believe that children are grown thetans in little bodies.

What about Religious freedom. Why do We think Goliath can be slayed. We understand the first amendment religious freedom and purport to you a different question. An example the JW religion believes they have the right to refuse receiving blood products. This has been challenged in courts adults have the right to choose this right to refusal not only for themselves but their children. I need for you to adjust your thought process on this right. What if the church and or the parent is poisoning the child which is why they need a blood product? Or another analogy an adult has the right to handling poisonous serpents for their religion. There is a box of vipers in the middle of the sermon area, a parent sits a child in the middle of the box. Is it a religious freedom or child abuse? Or a third analogy is Parents signing their rights away to have their children work as "volunteer ministers," slave labor to financially make up for the service fees. Children and family are moved to wherever the church deems best.

Problem

There are over 200 individuals listed and want to be heard as claimed abused/trafficked victims. There are a few that have stepped forward to set the tone of these abuses. Each abused person has varying degrees and levels of abuse but the cause of the crimes listed come from similar reasons. The sample group of the larger list represent Physical abuse, Mental abuse, torture, abandonment, neglect, sexual exploitation, sexual abuse, child trafficking, adult trafficking, child labor, and unlawful detainment. All in this group are adults now and still have the pain and suffering they are working through. Many in this group have tried to end the problems on their own terms, commit suicide and a few were successful at that.

We are focusing this investigation first on children and the crimes against children because we have so many that are confessing the suffering that was endured and all of them want to eliminate the newer generation from the abused list. Each of these victims on this list has said, "I wish someone would have noticed what was happening on a day-to-day basis to me. I wish someone would have spoken up, yelled until somebody listened. I need to be a voice for the children today in the same situation." The children in the church of scientology, public staff and SeaOrg are all vulnerable at this time.

The second focus is on human (adult and child) trafficking. We know children and adults are trafficked not only from state to state but also country to country. Moving children and adults around the nation is common place. Once the move is done the person's identifying documents are confiscated for "safe keeping." This past year there has been a focus on bringing children and adults in from Mexico and Europe.

Why don't people just leave? Scientology is cult, a prison of belief. Most people starting in scientology get in because they see this "religion" would be helpful to themselves and once in they are held to believe if they leave it will hinder saving the planet.

Outsiders question the reason why it is so difficult to leave scientology. Whereas Catholics, Muslim, Hindu etc. when or if you want to leave or change faith, you just do. To answer that you have to relate it to an abusive relationship. There are ways the "handlers" try to keep you under control. Reminder the

Doctrine policies and practices of the COS basics are auditing, ethics handling, and courses. These religious services are not free unlike 99.9% of religions where tithing and donations are donated or given, not a fee for service model.

Quick summary of types of scientologist public, staff, seaorg

Public live in their own homes, communities have businesses or jobs (not a generalization that most work with or for other Scientologists) they pay for services and do sign service religious contracts to receive services.

Staff- sign a 2.5 or 5 yr. contract- work at the orgs for the orgs duties such as HR, Sales, registrars, Event planning, manual labor, media production. Staff can receive commissions on sales but it is limited by the org making their weekly stats. If they don't make enough in sales to pay the rent on a building that is truly already paid for the difference comes out of their sales commission. As an example. Staff could work for free some weeks and it is reported is a frequent phenomenon.

SeaOrg is the pseudo navy. People enlist to serve in the seaorg and sign a billion-year pledge. They live, work (play) eat sleep as a member of the seaorg. They do not choose their work location, what they do, where they live in the world or hours of work. They are not allowed to date, if there is any organization physical contact they must be married. And are not allowed to have children. If they do become pregnant, they are pressured to fulfill their contract and terminate the pregnancy or leave the organization. The Seaorg also has the RPF attached to it. The rehabilitation project force is the jail of the seaorg. You are not able to have any social contact with others, kept apart, work like a slave, must run anywhere and eat separately. It is the punishment section. Some are in punishment for years; this includes children and the elderly. There are reports and proof of children and elderly to be put into RPF jail for not making stats enough weeks in a row, being gay, talking back, wanting to leave, anything what they consider 'down stat'

SCENARIO- I want to leave scientology (and remember you are NOT allowed to talk to anyone except your ethics handler about this or you will be punished!)

Ok, come in for handling and courses depending on the reason you want to leave, financial stress may be one of the big ones. Adding to the "bill" for more courses and handling just doesn't make sense.

No I want to leave,

The world will suffer and not be cleared the weight of the planet gets put on your shoulders. The world will not be cleared and ultimately may fail because you leave scientology. This may be a bigger threat to someone that is considered a second or third gen. They are born with inherent beliefs that all people need to be cleared on this planet.

Achieving the state of Clear means a **person has supposedly overcome the "reactive mind" and is in complete control of their analytical mind.** According to Hubbard: "A Clear is a being who no longer has his own reactive mind, and therefore suffers none of the ill effects the reactive mind can cause.

No I want to leave,

You will not prosper, end up flipping burgers- financial ruin is threatened to those that leave. The person will not be able to take care of themselves and will suffer immensely. But truth be told flipping burgers pays better than the \$47.00 a week income the seaorg pays or 0 if they don't make their stats. The threat is always there that a person won't have a bed to sleep in or house to live in. truth is the staff and seaorg members share living spaces with many others as it is, more like an overcrowded dorm room. Example of that is those on courses in clearwater were found at the hotel 6-9 beds in a room. With only 1 bathroom for all of them.

No I want to leave,

You don't have identity documents we have them locked up for safe keeping. Most seaorg members that are recruited and join as second gens don't even get a high school diploma. Most have never had or seen their identifying documents such as a birth certificate or passport. Those trafficked from other countries their passports and visas are locked up so they have no way of retrieving or duplicating them. People are held hostage to identity kidnapping.

No, I want to leave,

Ok you will lose your friends and loved ones. Disconnection is a huge policy for scientology. They did not stop disconnection practices no matter what they say. People leaving scientology that are declared SPs will not talk with their loved ones, relatives or friends again. This can include where they work if their employment is a scientology company. They are shunned for life or until they become "in good standing" with the church. This can be the demarcation line for many people that are under the radar folks wanting to leave but not wanting to lose everything they know.

Nope,

Ok you will have a freeloader debt. Auditing ethics handling and courses all come at a cost. As stated above it is a fee for service model. Those that cannot afford the costs can pay their way by volunteer ministry which includes staff and seaorg. The only problem is when and if they leave the volunteer ministry without serving their contract requirements the fees are now due. I saw several contract "freeloader" debt bills and they were approximately \$40,000.

Nope

If you ever want to come back you will have to make amends= making amends means to do some form of community service hours for the church and pay your freeloader debt in full. Then you can hope to see your disconnected people again or rejoin as a public.

Nope

Ok here is \$500 and get out but remember the 4 contracts you signed employment contract, no psychiatry contract, arbitration, we are a religion, oh and for the seaorg a billion-year pledge contract

you can never say anything bad about us

You signed documents saying you can't sue

No one can sue on your behalf

If there is ever an issue you must arbitrate

We pick the arbitrators from COS

You get no representation

You can't record anything

We decide the arbitration results

We can legally take you out of a hospital for the rest of your life "if we want to" even as a disconnected person.

Auditing- These questions are given/received to and from adults and children. Adults ask children and children ask adults. Sexual exploitation is normal in these questions.

Counseling Processes. The Scientologist is asked questions about past events while holding two metal cylinders attached to an electrical resistance meter (galvanometer) with a dial. The term "auditing" was coined by L. Ron Hubbard in his 1950 book Dianetics: The Modern Science of Mental Health, which describes the process. Auditing uses techniques from hypnosis that are intended to create dependency and obedience in the subject. Auditing is sold in session Intensives- 12.5-hour blocks that average \$3000 per block. People can pay a higher fee to have a certain person "Audit" them, this includes picking children to audit them.

Intent- The main intention of an auditing session is to remove "charged incidents" that have caused trauma, which are believed in Scientology to be stored in the "reactive mind". Scientologists believe that the role of auditing is to improve a person's abilities and to reduce or eliminate their neuroses. These incidents must then be eliminated for proper functioning.

Actual result- extreme role play power control sub dom full over pre-clear barrage of questions on all intimate any Power dynamic imbalance is indefensible procedural to advance in life and the bridge.

- Sessions are not timed, they are not done until a win on end 5phenomenon is accomplished
- audits are on all age levels 1 day to death
- audits are not allowed to leave until a needle floats could be 10 hrs
- auditors can be as young as 9
- auditors ask questions to any degree, even sexual in nature
- auditors ask questions of crimes
- Johannesburg sec on children
- Sessions are processes of "run downs" questions not charging a needle means there are lies or misinformation that needs further auditing
- end of life assist audit
- all sessions begin with rudiments

Ethics Handling- These questions are given/received to and from adults and children. Adults ask children and children ask adults. Sexual exploitation is normal in these questions.

L. Ron Hubbard defined ethics as “reason and the contemplation of optimum survival.” He has also pointed out: “Dishonest conduct is non-survival. Anything is unreasonable or evil which brings about the destruction of individuals, groups, or inhibits the future of the race.”

Intent- “the actions an individual takes on himself to ensure his continued survival across the dynamics.” It is a personal thing. When one is ethical, it is something one does oneself by choice.

Actual- little less informal than auditing but focused on controlling and shaming you for any problem you pulled in used as a crisis management. Ethics is course correction

Committee of Evidence- Scientology’s version of a jury. Committee of Evidence is brought for all high crimes. High crimes include talking about Scientology to anyone except your ethics officer or reporting a crime to an authority. Children are taught from speaking age to NOT talk to authorities. The Jury outcomes result in 3 ways, more auditing, RPF or declared a Suppressive Person (SP)

Additional auditing- added sessions are needed to clear the person of their crimes. Auditing could include sessions after confession of any real or imagined crime. These crimes could include talking to another scientologist even your spouse about wanting to leave Scientology all the way to pedophilia or murder. Crimes ARE NOT reported to the authorities. The crimes are dealt with in-house.

RPF- the Scientology jail. This is not limited by age but does only effect SeaOrg. RPF prisoners work non stop doing manual labor. Are separated from the church, are not able to speak to anyone unless spoken to, must run anywhere, sleep in bunks, eat after normal canteen hours. RPFs stay in the RPF until they have changed their behavior or made amends for their actions. This could be 6 months to years upon years. Needless to say, people are put in the RPF jail without legal due process or justification. Executives say they eliminated the RPF, they did not, they only changed the name.

Declared SP- Disconnection is the outcome of being declared and SP. Any person declared an SP must leave the church and never speak to person in good standing within the church. This includes friends and family. Talking to an SP will get you declared also so this is strictly adhered to. There are no age limits on being declared and SP. Children are declared without their parents and the parents to continue in good standing MUST disconnect. In the list of over 200 survivors this is a common theme.

Courses- These questions are given/received to and from adults and children. Adults ask children and children ask adults. Sexual exploitation is normal in these questions.

systematic approach to moving Scientologists to the state of Clear. Hubbard added a series of steps he called "releases" which handled memory, communication, problems, "overts and withholds" (sins, crimes and secrets), upsets, and justifications for failure.

Intent- The Bridge to Total Freedom, also known as the Classification, Gradation and Awareness Chart, is Scientology's primary action plan and road map to guide a person through the sequential steps to attain Scientology's concept of spiritual freedom

Actual- Courses are a planned managed step/path to clear or OT levels paid services grooming with dolls on role playing bull baiting touch assist confront interrogation

- TR s are the beginning grooming
- TR0 is ultimate training for communication under worst case
- BSM = Basic Scientology Material 1,000s of hours
- Tone Scale Course- perceives death is at a higher tone scale than accountability or failure pts sp
- trs and objectives
- Hubbard qualified scientologist course
- intro courses
- overcoming ups and downs of life
- person values and integrity
